## ALAYA RESORT UBUD CELEBRATES ITS GRAND OPENING IN TRUE STYLE

Alaya Resort Ubud celebrated its Grand Opening on Saturday, 22nd June 2013 with a stylish gathering for friends, travel industry associates and media representatives. Guests started to arrive at 4pm and the flow of events throughout the evening highlighted all of the resort's facilities.

A Traditional Food Festival took place at Petani, which is Alaya's distinctive street-front eatery. Stalls and live cooking stations were set up to recreate the ambience of a fun marketplace serving local cakes, sweet treats and tasty snacks.

At the same time a Press Conference was hosted at the Bale. It was an opportunity to meet the management team of Alaya Resort Ubud together with its collaborating designers. This interactive session enabled Martin Ground as the architect, Made Wijaya as the landscaper and Zohra

Boukhari as the interior decorator to respectively discuss their work at Alaya.

Guests were also personally escorted to inspect the newest branch of the award-winning DaLa Spa and all of its opulently-appointed treatment facilities. DaLa Spa is the latest addition to Ubud's flourishing wellness industry. It offers a meticulously crafted menu of rituals that draws inspiration from Indonesia's timeless healing and beauty heritage. The tour concluded with a glass of freshly prepared jamu, a blended herbal tonic known to enhance personal health.

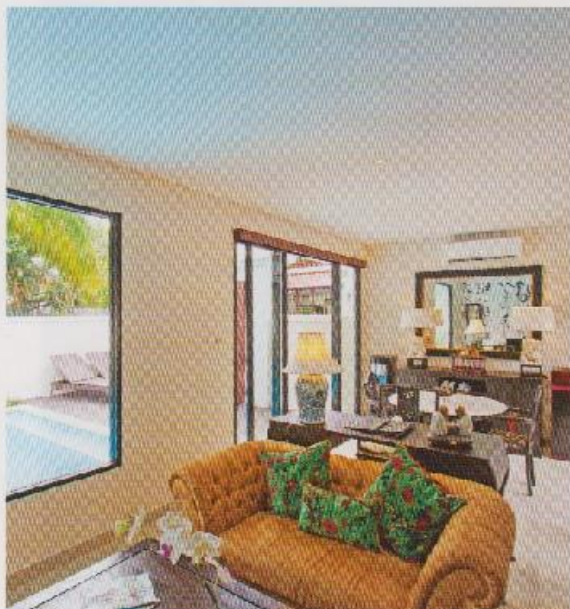

Cocktails and canapés were served from 7pm onwards at Petani as special guest musicians took to the stage. Respected jazz festival violinist, Helga Sedli from Budapest, set the mood with an uplifting session of cool tunes. Ethnic music

by Balinese guitarist, Wayan Balawan, and his 10 piece band then entertained guests as the celebration continued until late.

The Grand Opening of Alaya Resort Ubud marks its official launch into Bali's evolving hospitality industry. The property is now ready to commit itself fully to be a part of the culturally charged village of Ubud. This encompasses supporting the local community and connecting with others on a business as well as a social level.

This launch was just the beginning and the future looks extremely bright. Alaya Resort Ubud hopes to become known for its personalised service and genuine hospitality delivered with a friendly Balinese smile. It is a down-to-earth retreat with a defined sense of belonging that is truly unique to the island of Bali.
